## Conditional Formatting

Selected entire spreadsheet

Deselected fields "F" and "H"

Clicked on format, then Conditional formatting

In this project the formatting rule is, "if the cells are empty", and chose a color to make the empty cells standout

Clicked on "Data", "Data Cleaning", then "Remove Duplicates"

Organized data seperated by a commas in column "L" , Clicked on Column "L", then "data", then "split text to columns"

Used COUNTIF function to ensure the data in column I is listed properly

I identified the lost cost membership which values \$100

Then I typed in member dues<100 in column H, row 75

After that I entered a this formula in Cloumn I =COUNTIF(I2:I72, "<100")

With this formula, I was able to locate a membership that was entered in as -\$200, and was able to correct the error

Next action was to locate any memberships that were greater than the highest membership cost which is \$500

I entered member dues>500 in cloumn H , row 76

Then I entered in Column I, row 76 this formula =COUNTIF(I2: I72,">500")

With this formula, I was able to locate a membership that costs' \$1000, and was able to correct the type error

I entered a new column beside coulmn A, to input the LEN function. This function tells me the length of a text string by counting the number of characters it contains

After inputting the LEN formula, I excuted the conditional formatting feautre to highlight a text string that was not equal to 6
